RECORD OF PROCEEDINGS AIR FORCE BOARD FOR CORRECTION OF MILITARY RECORDS

IN THE MATTER OF:

DOCKET NUMBER: BC-2012-01791

COUNSEL: NONE

HEARING DESIRED: NO

APPLICANT REQUESTS THAT:

His fitness assessment (FA) score recorded on 29 March 2012 be removed from the Air Force Fitness Management System (AFFMS).

APPLICANT CONTENDS THAT:

During the FA on 29 March 2012, he sprained his right ankle in the course of running the 1.5 mile cardio component. After the FA he conferred with his primary care manager (PCM) and became aware of previous fractures to his right ankle that were misdiagnosed at his previous base.

In support of his request, the applicant provides copies of his AF Form 108, Physical Fitness Education and Intervention Processing, current AF Form 422, Notification of Air Force Member's Qualification Status and AF Form 469, Duty Limiting Condition Report, memorandums for record (MFRs) from his commander and supervisor, and his AFFMS Report of Individual Fitness.

The applicant's complete submission, with attachments, is at Exhibit A.

STATEMENT OF FACTS:

The applicant is currently serving in the Regular Air Force in the grade of Staff Sergeant (SSgt), E-5.

AIR FORCE EVALUATION:

AFPC/DPSIM recommends the cardio portion of the fitness assessment dated 29 March 2012 be updated to reflect "exempt" in AFFMS. The applicant provided copies of the AF Form 422, exempting him from the cardio portion of the FA and his AF Form 108 to confirm he had a medical condition that precluded the achievement of a passing fitness score. With the exemption of the cardio score, the applicant's overall composite score will reflect 80 (Satisfactory).

The complete AFPC/DPSIM evaluation, with attachments, is at Exhibit B.

APPLICANT'S REVIEW OF AIR FORCE EVALUATION:

A copy of the Air Force evaluation was forwarded to the applicant on 18 June 2012 for review and comment within 30 days (Exhibit C). To date, this office has not received a response.

THE BOARD CONCLUDES THAT:

1. The applicant has exhausted all remedies provided by existing law or regulations.

2. The application was timely filed.

3. Sufficient relevant evidence has been presented to demonstrate the existence of error or injustice to warrant partial relief. We took notice of the applicant's complete submission in judging the merits of the case and agree with the opinion and recommendation of the Air Force office of primary responsibility to correct the cardio portion of the fitness assessment dated 29 March 2012, to reflect "exempt" in the Air Force Fitness Management System. The applicant's overall composite fitness score will reflect 80.00, (Satisfactory). Accordingly, we recommend that his records be corrected to the extent indicated below.

THE BOARD RECOMMENDS THAT:

The pertinent military records of the Department of the Air Force relating to APPLICANT be corrected to show the cardio portion of the fitness assessment dated 29 March 2012 be amended to reflect "exempt" in the Air Force Fitness Management System. The Board determined that the military records should be corrected as set forth in the attached copy of a Memorandum for the Chief of Staff, United States Air Force. The office responsible for making the correction will inform you when your records have been changed.

After correction, the records will be reviewed to determine if you are entitled to any monetary benefits as a result of the correction of records. This determination is made by the Defense Finance and Accounting Service (DFAS-IN), Indianapolis, Indiana, and involves the assembly and careful checking of finance records. It may also be necessary for the DFAS-IN to communicate directly with you to obtain additional information to ensure the proper settlement of your claim. Because of the number and complexity of claims workload, you should expect some delay. We assure you, however, that every effort will be made to conclude this matter at the earliest practical date.
