

RECORD OF PROCEEDINGS  
AIR FORCE BOARD FOR CORRECTION OF MILITARY RECORDS

IN THE MATTER OF:

DOCKET NUMBERS: BC-2012-02242

COUNSEL: NONE

XXXXXXXXXXXXXXXXXXXXXXXXXX

HEARING DESIRED: NO

---

APPLICANT REQUESTS THAT:

His Fitness Assessment (FA), dated 8 May 2012, be removed from the Air Force Fitness Management System (AFFMS).

---

APPLICANT CONTENDS THAT:

The day before his FA test (7 May 2012), he was sick from food poisoning. He woke up on 8 May 2012, feeling better than he had the day before, but not fully recovered. He signed off on the fitness questionnaire and stated he did not have any medical issues that would hinder him from testing. He took the test because he was already overdue as a result of Temporary Duty commitments in April, in spite of the fact he was still feeling ill. He should have rescheduled the test due to nausea and dehydration. He did not see a doctor until after his test and was put on quarters for 24 hours to recover/hydrate.

In support of his appeal, the applicant provides copies of his Quarters Authorization, medical documentation, and his FA.

The applicant's complete submission, with attachments, is at Exhibit A.

---

STATEMENT OF FACTS:

The applicant is currently serving in the Regular Air Force in the grade of captain (O-3).

The remaining relevant facts, extracted from the applicant's military service record, are contained in the evaluation provided by the Air Force office of primary responsibility at Exhibit C.

---

AIR FORCE EVALUATION:

AFPC/DPSIM recommends denial. DPSIM states Air Force Instruction 36-2905, paragraph 2.11, indicates Regular Air Force, Air Force Reserve, and Air National Guard (Title 10) members are mandated to complete an official FA at a minimum of twice yearly. Members

[REDACTED]

must test by the last day of the month, six calendar months following the previous passing test. Air National Guard (Title 32) members are mandated to complete an official FA at a minimum of once yearly. Members must be tested by the last day of the month, 12 calendar months following the previous test. In accordance with paragraph 2.11.1, frequency of the FA should be based on the previous fitness score unless earlier assessment is necessary to accommodate deployment. The applicant should have reported to the clinic instead of taking his FA due to illness.

The complete DPSIM evaluation, with attachment, is at Exhibit B.

---

APPLICANT'S REVIEW OF AIR FORCE EVALUATION:

A copy of the Air Force evaluation was forwarded to the applicant on 28 August 2012, for review and comment within 30 days (Exhibit C). As of this date, this office has received no response.

---

THE BOARD RECOMMENDS THAT:

1. The applicant has exhausted all remedies provided by existing law or regulations.
2. The application was timely filed.
3. Insufficient relevant evidence has been presented to demonstrate the existence of error or injustice. We took notice of the applicant's complete submission in judging the merits of the case; however, we agree with the opinion and recommendation of the Air Force office of primary responsibility and adopt its rationale as the basis for our conclusion that the applicant has not been the victim of an error or injustice. Therefore, in the absence of evidence to the contrary, we find no basis to recommend granting the relief sought in this application.

---

THE BOARD DETERMINES THAT:

The applicant be notified that the evidence presented did not demonstrate the existence of material error or injustice; that the application was denied without a personal appearance; and that the application will only be reconsidered upon the submission of newly discovered relevant evidence not considered with this application.
