AIR FORCE DISCHARGE REVIEW BOARD DECISIONAL RATIONALE

FD-2009-00126

GENERAL: The applicant appeals for upgrade of discharge to honorable, to change the reason and authority for the discharge, and to change the reenlistment code.

The applicant was offered a personal appearance before the Discharge Review Board (DRB) but declined and requests that the review be completed based on the available service record.

The attached brief contains available pertinent data on the applicant and the factors leading to the discharge.

FINDING: The Board denies the upgrade of the discharge, change of reason and authority for discharge, and change of reenlistment code.

The Board finds that neither the evidence of record nor that provided by the applicant substantiates an inequity or impropriety that would justify a change of discharge.

ISSUE:

Issue 1. Although not explicitly stated, applicant contends his discharge was inequitable because it was too harsh. The records indicated the applicant received a General Discharge for Unsatisfactory Participation from the Air National Guard. Upon review of the record, the Board was unable to find any documentation regarding the discharge. Due to lack of evidence and supporting documentation to explain the discharge, the Board concludes that the misconduct was a significant departure from the conduct expected of all military members. The Board relies on the presumption of regularity and finds the characterization; reason for discharge and the reenlistment code were appropriate.

Issue 2. Applicant states that his discharge did not take into account the good things he did while in the service. The DRB took note of the applicant's accomplishments and found the seriousness of the willful misconduct offset any positive aspects of the applicant's duty performance. The Board concluded the discharge was appropriate for the reasons which were the basis for this case.

CONCLUSION: The Discharge Review Board concludes that the discharge was consistent with the procedural and substantive requirements of the discharge regulation and was within the discretion of the discharge authority and the applicant was provided full administrative due process.

In view of the foregoing findings, the Board further concludes that there exists no legal or equitable basis for upgrade of discharge and determines the discharge should remain unchanged.
