

DEPARTMENT OF THE NAVY  
BOARD FOR CORRECTION OF NAVAL RECORDS  
2 NAVY ANNEX  
WASHINGTON DC 20370-5100

WMP  
Docket No: 0848-02  
30 May 2002

This is in reference to your application for correction of your naval record pursuant to the provisions of Title 10 of the United States Code section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 5 June 2002. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice.

The Board found that you enlisted in the Navy on 31 July 1991 for four years at age 18. On 9 October 1991, after three episodes of bedwetting while at recruit training, you were diagnosed with enuresis. During the psychological assessment, you revealed a prior history of between two to three episodes per month since the age of nine. You were recommended for entry level separation due to this diagnosis.

On 10 October 1991 you were notified that separation action was being initiated by reason of defective enlistment and induction due to erroneous enlistment, as evidenced by the diagnosis of enuresis. You were advised of and waived all of your procedural rights, with the exception of obtaining copies of documents supporting the basis for the proposed separation. On 11 October 1991 separation was approved. On 16 October 1991 you received

an uncharacterized entry level separation by reason of erroneous entry, and you were assigned an RE-4 reenlistment code.

Regulations authorize the assignment of an RE-4 reenlistment code to an individual separated by reason of erroneous enlistment. The Board found no evidence that the diagnosis of enuresis was incorrect. Given the extensive history of prior episodes, the continuance of this condition while at recruit training, and your failure to complete recruit training, the Board concluded that the assigned reenlistment code was proper and no change is warranted. Accordingly, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

W. DEAN PFEIFFER  
Executive Director
