

DEPARTMENT OF THE NAVY

BOARD FOR CORRECTION OF NAVAL RECORDS
2 NAVY ANNEX
WASHINGTON DC 20370-5100

TRG

Docket No: 4989-02 18 September 2002

This is in reference to your application for correction of your naval record pursuant to the provisions of Title 10 of the United States Code section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 17 September 2002. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice.

You contend in your application that you were not released from active duty on 6 April 1964 but continued to serve until May 1964. You have not provided any documentation to support your request and have not stated why you want such a correction.

The record shows that you enlisted in the Navy on 29 April 1960 and served until you were honorably released from active duty on 6 April 1964. The 6 April 1964 date is shown on your DD Form 214, and entries on three other service record pages also show that you were released from active duty on that date. You signed the DD Form 214 and one other record entry. Copies of the DD Form 214 and other service record pages are enclosed for your information.

The Board was aware that regulations allow for separation up to 90 days prior to the expiration of an enlistment in certain situations. Since the record clearly shows that you were separated on 6 April 1964, the Board concluded that a change in the date of your release from active duty was not warranted.

Accordingly, your application has been denied. The names and

votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

W. DEAN PFEIFFER Executive Director
