

DEPARTMENT OF THE NAVY  
BOARD FOR CORRECTION OF NAVAL RECORDS  
2 NAVY ANNEX  
WASHINGTON DC 20370-5100

JRE  
Docket No. 05585-09  
20 July 2009

[REDACTED]

[REDACTED]

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552. You request that the diagnosis of asthma be removed from your naval record.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 9 July 2009. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. In this regard, the Board found that although a nurse practitioner indicates in a statement dated 16 May 2009 that she had reviewed your "available medical history" and found no "clear evidence of asthma", entries in your pre-service health record indicate that you were diagnosed with asthma and prescribed inhaled medication. You were discharged from the Navy by reason of erroneous entry on 18 July 2008 after you disclosed your pre-service history of asthma.

In view of the foregoing, there does not appear to be any basis for removing the diagnosis of asthma from your record, and your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

  
W. DEAN PFEIFFER  
Executive Director
