

DEPARTMENT OF THE NAVY
BOARD FOR CORRECTION OF NAVAL RECORDS
2 NAVY ANNEX
WASHINGTON DC 20370-5100

BJG
Docket No: 3915-10
27 December 2010

[REDACTED]

[REDACTED]

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 14 December 2010. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

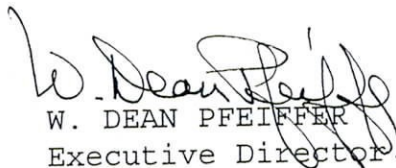

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. You entered active duty in the Navy on 24 October 2009. You later voluntarily requested to be disenrolled from an Officer Candidate Program. On 17 March 2010, you were honorably discharged due to your failure to complete a commissioning program and assigned an RE-3K (disenrolled from an officer program) reentry code.

In its review of your application, the Board carefully weighed all potentially mitigating factors, such as your youth and desire to reenter the armed forces. However, the Board concluded that your reentry code should not be changed due to

your voluntary disenrollment from a commissioning program. The Board noted that an RE-3K reentry code is waivable and is the most favorable you could have received under your circumstances. In view of the above, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

W. DEAN PFEIFFER
Executive Director
