

DEPARTMENT OF THE NAVY
BOARD FOR CORRECTION OF NAVAL RECORDS
2 NAVY ANNEX
WASHINGTON DC 20370-5100

JSR
Docket No: 6672-10
22 July 2010

[REDACTED]

[REDACTED]

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

You requested removing the fitness reports for 15 February to 31 December 1999, 1 January to 31 March 2000, 1 April to 4 September 2000, 18 December 2000 to 31 December 2001 and 1 January to 1 July 2002.

It is noted that the Commandant of the Marine Corps (CMC) has directed modifying the contested report for 18 December 2000 to 31 December 2001 by removing, from section I (reporting senior's "Directed and Additional Comments"), "In the past, MRO [Marine reported on] has had a problem maintaining bearing in stressful situations. However, understanding this weakness, MRO has shown considerable improvement in maintaining poise under pressure."

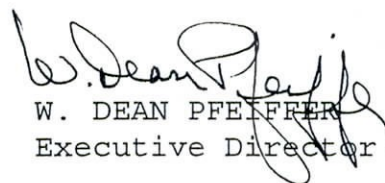

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 22 July 2010. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies. In addition, the Board considered the report of the Headquarters Marine Corps Performance Evaluation

Review Board (PERB), dated 18 June 2010, a copy of which is attached, and your letter dated 16 July 2010.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. In this connection, the Board substantially concurred with the comments contained in the report of the PERB. The Board found the supporting statements you provided were commendatory, but did not invalidate any of the contested fitness reports. In view of the above, your application for relief beyond that effected by CMC has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

W. DEAN PFEIFFER
Executive Director
