Docket No: 5267-13

[REDACTED]

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 8 January 2014. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice.

The Board found that you enlisted in the Navy on 21 July 2004. On 9 September 2004 your commanding officer directed that you be separated based on your lying at the Moment of Truth about a suicide attempt and psychiatric history. On 20 September 2004 you received an uncharacterized entry level separation by reason of fraudulent entry and were assigned a reentry code of RE-4.

The Board noted that a reentry code of RE-4 is required by regulatory guidance to be assigned to service members separated by reason of fraudulent entry. Since you have been treated no differently than others in your situation, the Board could not find an error or injustice in the assignment of your reentry code. The Board did not accept your contention to the effect

that the reports made at the time of your discharge are no longer accurate or correct. Accordingly, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

A handwritten signature in cursive script, appearing to read "Robert D. Zsalmán".
