This is in reference to your application for correction of your naval record pursuant to the provisions of 10 USC 1552.

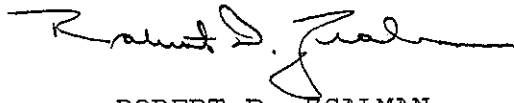

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 16 June 2014. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies. In addition, the Board considered the advisory opinion furnished by CNRC Memo 1133 Ser N32 of 15 Apr 14, a copy of which is attached.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. In making this determination, the Board concurred with the comments contained in the advisory opinion. A review of your electronic service record revealed that upon entry into the Delayed Entry Program (DEP) and prior to you entering active duty, you were advanced to E-2 for having completed two years of Junior ROTC (JROTC) Program. Your application claims that the Recruiter did not document the completion of your Junior ROTC Leadership Challenge Camp, warranting advancement to E-3. However, the Board agreed with the advisory opinion that there was no evidence found to indicate that you had completed three years of JROTC as is required for advancement to E-3. Furthermore, completion of the JROTC Challenge Camp in and of itself does not warrant advancement to E-3. Accordingly, your application has been

denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

ROBERT D. ZSALMAN
Acting Executive Director
