Ref: (a) 10 U.S.C. 1552
(b) SECDEF Memorandum, "Supplemental Guidance to Military Boards for Correction of Military/Naval Records Considering Discharge Upgrade Requests by Veterans Claiming Post Traumatic Stress Disorder" dated September 3, 2014.

Encl: (1) DD Form 149 with attachments
(2) Case summary
(3) Subject's naval record (Excerpts)

1. Pursuant to the provisions of reference (a), Petitioner, a former enlisted member of the Navy, filed enclosure (1) with this Board requesting that the characterization of his other than honorable discharge be changed in light of current guidelines as reflected in reference (b). Enclosures (1) through (3) apply.
2. The Board, consisting of [REDACTED], reviewed Petitioner's allegations of error and injustice on 4 February 2015 and, pursuant to its regulations, determined that the corrective action indicated below should be taken on the available evidence of record. Documentary material considered by the Board consisted of the enclosures, naval records, and applicable statutes, regulations, and policies.
3. The Board, having reviewed all the facts of record pertaining to Petitioner's allegations of error and injustice finds as follows:
 - a. Before applying to this Board, Petitioner exhausted all administrative remedies available under existing law and regulations within the Department of the Navy.
 - b. Although it appears that enclosure (1) was not filed in a timely manner, it is in the interest of justice to waive the statute of limitations and review the application on its merits.

Docket No: 13255-14

c. Petitioner enlisted in the Navy and began a period of active duty on 6 January 1964 at the age of 18. He served for two years without disciplinary incident. He also served three tours in the Republic of Vietnam (RVN) and was awarded the Vietnam Service Medal and the National Defense Service Medal.

d. During the period from 28 March 1966 to 2 January 1968, Petitioner received nonjudicial punishment (NJP) on six occasions for four periods of unauthorized absence (UA) totalling 17 days, being absent from his appointed place of duty, failure to obey a lawful order, and misbehavior as a sentinel. He was also convicted by special court-martial (SPCM) of two periods of UA totalling 52 days, missing the movement of his ship, and breaking restriction. As a result of the foregoing, Petitioner was processed for separation by reason of unfitness, and on 21 March 1968, he was issued an other than honorable discharge. Nonetheless, at the time of his discharge, his conduct average was 3.04, which was sufficiently high for consideration of a better characterization of service, if warranted.

e. With Petitioner's application is an affidavit, clinical psychological evaluation, and legal counsel dissertation attesting to the fact that his misconduct and subsequent administrative discharge from the Navy, were the direct result of his youth and immaturity, and the emotional control issues he experienced in RVN, which are diagnose symptoms of PTSD.

CONCLUSION:

Upon review and consideration of all the evidence of record, the Board concludes that Petitioner's request warrants favorable action.

The Board initially notes Petitioner's misconduct and does not condone his actions. However, the Board's decision is based on Petitioner's evidence as reflected in his medical and/or mental history documentation, psychological evaluation of PTSD, combat service in RVN, and overall satisfactory service which resulted in a high conduct mark average. Further, the fact that Petitioner did not engage in misconduct until after the traumatic events that led to his PTSD was persuasive to the Board, and as such, the Board concluded that the PTSD was a causative factor in Petitioner's misconduct. In this regard, this evidence led the

Board to reasonably conclude that the PTSD condition was directly related to his traumatic service connected events in RVN, existed at the time of his discharge, and subsequently resulted in his other than honorable discharge. After carefully considering all the evidence, the Board felt that Petitioner's diagnosed PTSD should mitigate the misconduct he committed while on active duty since this condition outweighed the severity of the misconduct. With that being determined, the Board concludes that no useful purpose is served by continuing to characterize the Petitioner's service as having been under other than honorable conditions, and recharacterization to a general discharge is now more appropriate.

In view of the foregoing, the Board finds the existence of an error warranting the following corrective action.

RECOMMENDATION:

a. That Petitioner's naval record be corrected to show that he was issued a general discharge on 21 March 1968, vice the other than honorable discharge actually issued on that day.

b. That a copy of this Report of Proceedings be filed in Petitioner's naval record.

c. That, upon request, the Department of Veterans Affairs be informed that Petitioner's application was received by the Board on 17 December 2014.

4. Pursuant to Section 6(c) of the revised Procedures of the Board for Correction of Naval Records (32 Code of Federal Regulations, Section 723.6(c), it is certified that a quorum was present at the Board's review and deliberations, and that the foregoing is a true and complete record of the Board's proceedings in the above entitled matter.
